TOTO Overview

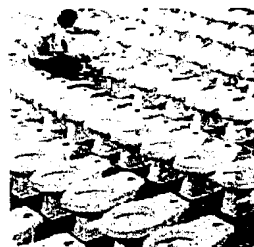

TOTO is the world's largest plumbing products manufacturer. We offer a complete line of commercial and decorative plumbing fixtures and fittings, faucets, accessories, shower and flush valves, as well as lavatories, toilets, Air Baths and urinals. More than 1,500 TOTO engineers and their colleagues are committed to achieving the seamless integration of performance, conservation, technology, and innovation.

For over 90 years, we have been producing superbly designed, high performance lifestyle enhancing plumbing products for residential bathrooms and commercial restrooms. While we understand our customers want products that have great design, we concentrate on creating a more enjoyable bathroom experience through products that infuse sophisticated style with substance, optimize water conservation and provide consistent, exceptional performance.

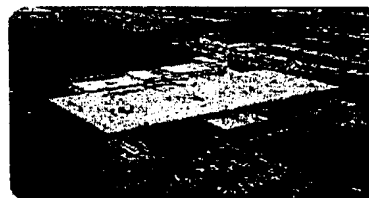

For example, TOTO embraced water and energy conservation years before government mandates. Through our constantly evolving manufacturing practices and advanced technology, we consistently lead the way in plumbing fixture efficiency and sustainability. Advanced innovations such as our EcoPower® fittings and valves, and our highly active participation in and support of the United States Green Build Council (USGBC), have made TOTO a world leader in plumbing products that have helped to advance society and help protect its future at the same time.

Our state-of-the-art plant in Morrow, Georgia is a testament to conservation and quality control. For example, we recycle the water we use as well as thoroughly treating it before returning it to the county. From our molding process to the final changes, our products are constructed and fine-tuned with computer precision and relentless attention to detail. Our pursuit of excellence pushes us beyond industry standards and drives us to maintain our reputation as one of the most decorated plumbing manufacturers in the world.

After nearly a century of experience, we are committed to maintaining the perfect balance of form, function and design. TOTO is Luxury in Balance.

Every TOTO Product Undergoes A Scrutinizing Inspection Process Under a Discriminating Eye

TOTO's State-of-the-Art Manufacturing plant in Morrow, Georgia.

Computer Guided Glazing Process Ensures Quality & Precision.
